

EUTHALIA  
FRAGRANCES

COLLECTION

The harmony and complexity of art and nature expressed through vases of extraordinary beauty.

Introducing the next chapter of Euthalia Fragrance history: the Raku Collection.

A display of unparalleled creativity, craftsmanship and design.

A collection of unique pieces, handcrafted in Italy, inspired by worldwide iconic locations.

A marriage in the name of exclusivity between the finest home fragrances and magnificent collector's items.

Raku vases available in two sizes, 2500 ml and 3750 ml. They come together with the refill of your favorite fragrance in their respective size.

As all the vases are unique, handcrafted pieces, the vase may differ from the photo of the catalogue, that is a representation of the technique used and the style and colors of that model.
